**Please join The Corps de Michael** for a presentation with conversation and study on Sunday, 22<sup>nd</sup> February at 8:45am in the Music Room at SWS. The image of Saint Michael wielding the sword (of knowledge) over the Dragon (lower self) is re-enacted each year by countless Waldorf Schools around the world. On the 22<sup>nd</sup> we will illumine this image as a key to understanding both world events, and the development of human consciousness. In this follow-up session we will

consider the significance of the 'War in Heaven' for both individual human beings, and a modern path of inner development. **As a result of 'Michael's Triumph', a new Age of Light has dawned; one that permits human beings to receive the inflow of spiritual life into the sense world.** Towards this end, the threefold holistic understanding of the human being—as revealed through Anthroposophy—seeks to renew human culture with such practical initiatives as Waldorf education and Biodynamic agriculture. **We will consider the far-reaching significance of 'Michael's Triumph' for individual biography as well as Michaelic initiatives in the Susquehanna Valley.**

**All are welcome. No previous experience with Anthroposophy, the awareness of one's humanity, required. To receive optional online background reading, please write:**
